/ Debtor Risk Assessment (DRA)

Coface determines a company's capacity to honour its short-term financial commitments with its Debtor Risk Assessment. The DRA derives from our extensive network of information sources and our unique payment experience database.

At Coface, we use our DRA on a daily basis to monitor our own insurance portfolio.

DRA scores rank from 0 (bankruptcy) to 10 (excellent risk). A company's DRA includes **historical assessments**, and the company's current **probability of default**. Monitoring can also be included.

Take advantage of our creditworthiness assessment based on several business indicators, including financial strength, profitability, environmental factors, the management board, payment incidents, and our debt collection experience.
