

# Coface Business Information

## COFACE CROSS BORDER NETWORK

### The most important domestic and international business connections in CEE

You need to check out the connections between your company and your partner within CEE region and even at an international level? Then Coface Cross Border Network is just what you need.

Go to the online platform **InfoIcon** and find the links between companies and persons with the **Cross Border Network**. This application shows all relations between all positions registered in our region (e.g. companies, shareholders, subsidiaries, owners, managers). Easy to understand, this interactive application provides useful background company information, their risk level and sales potential.

In specific, the following company information's available with the Cross Border Network:

- Searching possibility in CEE region
- Displaying the company's and individual's connections not only domestic but even international level
- Active and/or ceased companies and individuals linked to the selected company on domestic and international level
- Links of all owners and managers (including individuals) of the company to other companies
- List of companies related to the selected individual
- Display the risk category and other key data of the linked companies
